BONOMI

NORTH AMERICA

Excellence allows the Bonomi Group to compete on the international markets.

The challenge can be met thanks to the passion and the energy of men and women who research, design, engineer, and manufacture technologically advanced and high quality products.

A perfectly integrated team effort to provide high standards and customer satisfaction.
We are ready.

BONOMI GROUP PLUMBING DIVISION

Brass ball valves, gas cocks, brass butterfly valves, check valves, back flow prevention devices, pressure reducers and self cleaning filters. Multilayers pipe and press brass fittings, press systems and valves for copper, copper-nickel, stainless and carbon steel pipes.

Copper and bronze, carbon and stainless steel pressfittings, copper and bronze solder fittings, bronze and brass threaded fittings.

Brass valves and fittings for polyethylene pipes.

Stainless steel and copper-nickel pressfittings, push-fit system for gravity and vacuum drains, deck/bulkhead pipe penetrations.

BONOMI GROUP INDUSTRIAL DIVISION

Stainless steel and carbon steel, cast iron ball valves, butterfly valves, trunnion, cryogenic and control ball valves.

Production of rack and pinion double acting and spring return pneumatic actuators. Production of electric actuators. Supply and automation of ball and butterfly valves and accessories.

Choke valves, special valves and control systems for Oil&Gas industry.

Butterfly valves, check valves, dumpers, ball valves and customized valves for different industrial applications.

Metal seated ball valves for critical operating conditions such as high temperatures (up to +1200°F), low temperatures (up to -330°F), abrasive services, dangerous applications, and engineering for specific services.

OUR HISTORY

- 1901** **Rubinetterie Bresciane Bonomi** was initially founded in Lumezzane simply as a valve manufacturer for the winery industry.
- 1967** Thanks to a commitment to research and development through investments, Rubinetterie Bresciane Bonomi has been affirmed as the **first** leading international player in manufacturing **two-piece ball valves**.
- 1978** **Valpres** was founded as a specialized manufacturer of steel and cast iron ball valves with a focus on industrial applications.
- 1980** Bonomi Group acquires **Univers****, a producer of non ferrous metal items, turned and machined, according to customer drawings, turned parts.
- 1995** **Valbia** was founded for the production and distribution of electric and pneumatic actuators on a global scale.
- 1998** **Bonomi Deutschland** was founded.
- 1999** **Bonomi UK** was founded.
- 2000** **Bonomi India** was founded.
Bonomi Group acquires **Bossini Stampaggio****, active hot forging manufacturer.
- 2003** **Bonomi North America** was founded.
- 2012** **Bonomi Brasil** was founded for the production and distribution of pneumatic actuators for the domestic market.
- 2013** **Bonomi-GPK Russia** was founded.
- 2014** The **new production facility of Rubinetterie Bresciane Bonomi is opened in Gussago**: 1,300,000 sq. ft, 463,000 sq. ft of which is covered by with state of-the-art technologies granting the plant the A+ energy certification.
- 2018** **Bonomi China** (Bonomi Valves Automation Shenzhen) was founded.
- 2019** Bonomi Group has completed the acquisition of **Fra.Bo****, Italian leading manufacturer of fittings for plumbing installations.
- 2020** Bonomi Group acquires the 70% of the capital of **Quam***, company specialized in designing and producing choke valves, special valves and control systems for Oil&Gas industry and all the assets of the innovative startup **Loclain****.
- 2021** Bonomi Group has completed the acquisition of **Tecnovielle**, manufacturer of brass valves and fittings for polyethylene pipes.
- 2022** Bonomi Group acquires **Penta**, a company specialized in the production of metal seated ball valves for critical operating conditions, **Ghibson Italia***, a company specialized in the production of butterfly valves and check valves for different industrial applications, **Ghibson & Co.***, a company which supports and completes the range of Ghibson Italia and **AVS AB***** - Automatik Ventiler System (today **Bonomi Scandinavia**) a Swedish commercial company supplying industrial plants.
Corporate merger of **Fra.Bo** into Rubinetterie Bresciane Bonomi.
- 2023** Bonomi Group acquires **Chibro**, a company specialized in the production of stainless steel and cupronickel pressfittings, push-fit system for gravity and vacuum drains, deck/bulkhead pipe penetrations.

**TODAY AND
TOMORROW**
GROW TO
COMPETE ON

KEY POINTS

Very high **level of automation**: in the production lines, the control system and production management (MES with the real time data collection, in logistics; this allows traceability from raw material to delivery).

Constant investment in product, in process and method innovation, aimed at **maximum customer satisfaction**.

The companies of the group are engaged in a 360° **digital transformation**, from R&D to production, to sales and marketing, to the relationship with the consumer through CRM, with a fundamental presence of high specialized human capital.

Bonomi Group has always deemed important to adapt its company management system to the international reference standards:

- ISO 9001, products' quality management system, since 1994, first company in Italy in our market segment (previously EN 29002 certified).
- ISO 14001, environmental management system, since 2001.
- ISO 45001, occupational health and safety management system, since 2004.
- ISO 50001, energy management system, since 2015.
- API 6D, specification for pipeline valves, since 2013.
- API 6A, specification for wellhead and christmas tree equipment, since 2009.
- AEO/AEOF, Authorized Economic Operator Full (internal management of customs procedures relating to import and exports of goods), since 2014.

We work every day for a **total quality**, which depends on the quality of the individual operations in the production process.

Environmental commitment and sustainable production: the electricity needed is produced mainly from the photovoltaic panels (1,8 MW).

The heat is obtained mainly through an internal geothermal plant.

Architectural solutions, like shed roofs, maximize the zenithal light and minimize the solar radiation during summertime.

Low environmental impact products used in production processes.

Wastes recycles processes (oils, waters, materials, etc.) eliminate pollution or disposal hazards.

Bonomi Group is teaming up with its employees, promoting their sense of belonging through the lever of "well-being" in the workplace.

The company provides to employees with a gym, training courses, advancements of career, **corporate welfare** projects, designed primarily for employees but also involving more and more local companies. Bonomi Group is in fact one of the founding members of **Welstep** business network.

Rubinetterie Bresciane Bonomi was awarded as one of the best company in Italy at **Welfare Index PMI** event in 2019, 2020, 2021 and 2022 for its strong commitment to welfare.

5.0A AC/277V AC 5.0A DC/125V DC

Valve timer.

- Multi-functional timer (8 or 18 functions).
- Universal voltage 25-265V AC/DC.
- Wide time range: 0.1 seconds ~ 999 hours.
- 3 digit LCD display for preset time and run time.
- DIN rail mounted.
- 17.5 mm width.
- Customized connections including NPT, PG11, conduit and DIN.

VT-SRB24 12-24V DC

Valve timer with smart relay.

- Supports up to 48 I/Os (32 digital inputs and 16 digital outputs).
- DST feature available.
- Backlit LCD Screen for display and modification of pre-selected parameters of functional blocks, viewing I/O status and programming on the device.
- PC software for programming, online and offline simulation, documentation and printing.
- Designed for use in automation for commercial and Industrial sectors.
- Modbus communication.
- 250 lines of ladder programming.
- 16 soft text messages, time switches, compare counters, timers, counters and 12 analog functions.

SERIES LCB-1

LOCAL CONTROL BOX

- 24V AC/DC & 100-240VAC.
- 1/2" NPT conduit or PG11 connections.
- Red light = closed.
- Green light = open.
- Local control for VB030(M) through VB350(M) On/Off actuators only.
- When in AUTO mode, actuator accepts command from the control system.
- When in MANUAL mode, the position must be selected via the LCB-1.
- Power to the actuator can be shut off when using MANUAL mode via "OFF" position.
- Each component is UL approved, however, the assembly is not UL approved.

SERIES PNP-B

3-15 PSI PNEUMATIC-PNEUMATIC POSITIONER

- It is compatible with most of controllers.
- Response time is very fast and accurate.
- Split range 3 ~ 9 psi or 9 ~ 15 psi can be set by simple adjustment.
- Low air consumption.
- Simple direct/reverse action change.
- Simple zero and span adjustment.
- Orifices can be installed in the field to minimize the hunting occurrence and optimize operating conditions.
- It has IP66, type 4X (FM) ingress protection grade.
- Epoxy polyester powder coating resists the corrosion process.
- Maintenance of the positioner is easy because of modularized inner structure.

SERIES ENP-B

4-20 mA ELECTRO-PNEUMATIC POSITIONER

- It is compatible with most of controllers.
- Response time is very fast and accurate.
- Split range 4-12 mA or 13-20 mA can be set by simple adjustment.
- Low air consumption.
- Simple direct/reverse action change.
- Simple zero and span adjustment.
- Orifices can be installed in the field to minimize the hunting occurrence and optimize operating conditions.
- It has IP66, type 4X (FM) ingress protection grade.
- Epoxy polyester powder coating resists the corrosion process.
- Maintenance of the positioner is easy because of modularized inner structure.

4-20 mA ELECTRO-PNEUMATIC POSITIONER

- Easy maintenance.
- Precise calibration with simple span and zero adjustments.
- Split range 4-12 mA or 13-20 mA can be set by simple adjustment.
- 1/2" split range available.
- Rugged aluminum housing with corrosion-resistant coating.
- Vibration resistant design.
- Stainless steel gauges standard.
- Restricted pilot valve orifice kit for small actuators included.
- Certified for ATEX Eex md IIB T5 (05 ATEX 1076X) by NEMKO in conformance with EN 50014:1997, EN 50018:2000 and EN 50028:1987.
- Certified for EMC (K1046/E04) in conformance with EN 61000-6-2:2001 and EN 61000-6-4:2001 by RWTUV.
- Certified for Ex md IIB T6 (99-1075-Q1), Ex md IIC T6 (2000-1057-Q1), and Ex ia IIB T6 (2000-1056-Q1) by Kosha.

SERIES **NBN4-F25-E8-V1** M12 PNP DUAL NO

- Direct mounting on standard actuators.
- Small construction with sturdy plastic housing of protection class IP67.
- LED for power on.
- M12 male connector.

ACCESSORIES REQUIRED FOR OPERATION INCLUDE:

- BT32 activator for F25 series (see I, J, K.)
- V1-G-2-PVC cable for above 2 meters long.
- OR
- V1-G-10-PVC cable for above 10 meters long.

ITEM TYPE	SPECIFICATIONS
Item category	Inductive proximity
Subcategory	General purpose
Power type	DC
Range	0 to 3.24 mm
Connection type	4PINM12
Output type	NO PNP
Body composition	Non-metallic
Operating voltage range	10~30 VDC
Sensing type	Side
Status indicator	Yes
Short circuit protection	Yes
Rev. polarity protection	Yes
Max. load current	0.2A
Approvals	cULus
Net weight	1.80 oz.
Gross weight	1.80 oz.

SERIES PMI360DV-F130-IU-V15
INDUCTIVE 4-20 mA POSITION TRANSMITTER

- Analog output, load-dependent voltage or current.
- Parameterizable measuring range.

APPLICATION

The inductive angular positioning system PMI360DV-F130-IU-V15 is a measuring system designed for the non-contact detection of the angular position of valve actuators and valves. The system offers flexible, user-friendly parameterization functions and is suitable for the universal detection and feedback of rotary movements around a fixed rotation point in all areas of machine and plant construction.

SERIES **SCM**

SPEED CONTROL MUFFLER

- Safe and infinite variations of metering air flow at acceptable sound levels on exhaust ports of air valves.
- Speed of an operating cylinder or air tool may be increased or decreased with the adjusting screw, the final position is then locked in place by the lock nut.
- Exhaust air noise is eliminated by the surrounding sleeve of sintered bronze.

SINTERED BRONZE MUFFLER

- Reduces air exhaust noises to an industry accepted level with minimum flow restriction.
- They protect valves, impact wrenches, screw drivers and other air tools by preventing dirt and other foreign matter from entering the system.
- Non-corrosive.
- Can be cleaned with many common solvents.
- Maximum operating pressure: 250 psig (air).

SERIES BV
BREATHER VENT

- 1/8" through 1/2" NPT.
- Sintered bronze 40 micron breather vent.
- 150 PSI Max.
- Operating temperature range 35°F -300°F.
- Heavy duty sintered bronze construction.
- Helps prevent contamination.
- Space saving.
- Reduced decibel level of exhausted air.

SERIES **ASN2-N02**

1/4" METERING VALVE W/SILENCER

- 1/4" metering valve with silencer.
- Superior sound reducing performance.
- Designed to be mounted in valve exhaust port.
- Needle valve built into silencer allows metered exhaust flow.
- Over 20 db noise reduction at maximum flow rate.

SERIES 50G

GEAR OPERATORS

- Compact design for a versatile and economic solution.
- Install between standard ansi class 125/150 flanges.
- Iso 5211 square drive shaft for easy automation.
- Conforms to MSS-SP-67, MSS-SP-25 & API 609.
- For use on the following: all rubber lined, high-performance butterfly valves, conventional bracketed and direct mount flanged ball valves.

SERIES LOCK

VALVE LOCKOUT DEVICE

- Locking device can be easily installed between valve and actuator without modification.
- Device allows quick visual determination from a distance of whether the quarter-turn valve is locked open or closed by the locking pin.
- Simple installation to ISO patterns F05 to F10.
- Stainless steel construction.
- Locking pin tethered with steel cable.
- Pin can be locked in place to prevent removal.

SERIES SE-ISO

ISO STEM EXTENSION

- Lockable stem extension can be used in both manual and automated applications.
- The bonnet is a one piece casting.
- The top platform has multiple ISO bolt patterns to provide flexibility for accessories.
- The bottom flange also has an ISO 5211 bolt pattern and has a groove which encapsulates the bonnet seal.
- The bonnet has been designed to allow easy access to both bonnet and stem nuts.

WARRANTY, LIMITATIONS OF LIABILITY, RETURNS

Bonomi North America, Inc. warrants that its products shipped to its initial purchaser will be free of all defects in material and workmanship for a period of one year from the date of delivery.

Should any failure to conform to this warranty appear before the one year delivery period, and the product[s] are stored, installed, and maintained in accordance with the published Bonomi North America literature recommendations and standard industry practice, Bonomi North America, Inc. will repair or replace the product at its own expense.

The correction of non-conformities in the time period mentioned above shall constitute fulfillment of all Bonomi North America, Inc. liabilities to its initial purchaser.

Bonomi North America, Inc. shall not be liable for consequential damages to loss of other equipment or property, loss profits or revenue, except the price of the Bonomi North America goods to which this liability is referred.

The customer is expected to check the received goods upon arrival at its premises. Any evident damage to the product or severe damage to its packaging that could affect the functionality of the received item should be reported immediately and no later than 10 days after delivery, preferably with pictures, to sales@bonominorthamerica.com. This includes reporting any incorrect product and/or incorrect quantities.

The customer must obtain an RMA (return of materials authorization) from the Inside Sales Department prior to returning any items. The request for RMA should include part number, quantity, and customer's purchase order or invoice number with which the product was originally shipped.

The purchase of interim replacement item(s) does not relieve the customer of financial responsibility of the returned items. All returned items will be inspected, tested, and evaluated. The results of this process will always dictate the follow-up action. All returns must come from the initial purchaser and should not ship directly from the contractor or end-user to Bonomi North America.

If a returned product is confirmed defective, with the above mentioned warranty conditions, Bonomi North America, Inc. has a first duty of repairing the product, if possible. Should a repair not be possible then the next option should be a replacement or a credit.

No credit will be issued for returned products that have been clearly misused, installed incorrectly, manipulated, modified, damaged at the customer's premises or during the return shipment. However, if the product can be properly repaired at a reasonable cost, Bonomi North America, Inc. will offer the repair option to the customer.

If the purpose of the RMA is to return items ordered in error or items that were not able to be utilized, then these returns will be subject to a restock fee. The standard restock fee for manually operated valves is 20% while automated packages and items requiring partial/full disassembly and testing when returning will be subject to a 30% restocking fee.

These items must return in new/unused and in resellable condition in order to qualify for credit. Preventing damage to returning merchandise during the shipping process will be the sole responsibility of the customer. It is recommended that new packing materials be used when returning goods as the packing materials used to ship from our business is intended for single use only.

If the returning merchandise comprises all or the majority of the cost of the original PO under which it was ordered and where there was free freight granted, then Bonomi North America, Inc. may ask to recoup some or all of the original freight cost, deducting this amount from the final credit.

Likewise, if the returning merchandise comprises all of a PO that originally shipped via a prepay-and-add method then Bonomi North America, Inc. will deduct this freight amount from the final credit, should the invoice be open at the time of crediting.

Even in the above mentioned cases, the return of non-defective customized products such as assembled packages of valves and actuators and/or of orders supplied more than 2 months before and/or exceeding the value of \$1,500, will be at the discretion of Bonomi North America and, if accepted, may result in significantly higher restocking fees, depending on the amount of labor involved in disassembling, refurbishing, testing, and restocking the individual components.
