All flanges are 100% machined on all surfaces

Committed quality inspection team with modern testing equipment

Our Quality Control Manager sits on the B16.5 sub-committee for the pipe flange industry

FLANGES

Kerkau manufactures 1/2" - 42" size flanges in 150# - 2500# pressure classes.

Kerkau stocks A105 Carbon Steel, A350 LF2 Low Temp and F304/304L & F316/316L Stainless Steel.

Parts are made to dimensional specifications: ASME B16.5, B16.36, B16.47-MSS SP44, AWWA, (DIN) EN10204, JIS and more...

Kerkau also manufactures and stocks Long Weld Necks, Orifice Sets and Reducing flanges.

Kerkau can machine special face finishes such as: Large and Small Tongue & Groove, Large and Small Male & Female and RTJ flanges.

Kerkau stocks flanges with special coatings such as; Hot Dipped Galvanized, Clear Zinc, Yellow Zinc, and Unpainted with a special rust inhibitor.

Kerkau can source and manufacture almost any material, call us for a quote.

Kerkau can machine your custom parts to a supplied print, or develop a print for you.

PRODUCTION MACHINING

Kerkau currently supplies the automotive industry, military, and alternative energy fields in high volume production parts.

Kerkau has abilities to do turning, milling, drilling, threading, etc ...for any type of material from cast iron to titanium.

Our machines are capable of turning up to 63" and milling up to 53" in Outside Diameter.
